Looks great!

If you look thru emails I sent, maybe NJDEP shows DuPont/Chemours on their map. Then if you google maps in photo mode, you probably can site the factory, pin it and get the lat/long for this site. It ought to be on maps too.

I am way more than done hours for the week, so how about Monday if we all survive!

Gents,
I assembled a few screen shots of NJDEP soil geochem C-ratio in OneNote.
If you guys want to skype in together later today, we can look at the maps interactively together.

Drew
